Canadian enviroOSH Legislation plus Standards

What our clients are saying

"Canadian enviroOSH Legislation (plus Standards) is invaluable to us in our compliance auditing work. It provides updated legislation from every province and territory and referenced CSA standards, making it easy for us to compare and assist in compliance for the legislative requirements.

A tremendously useful tool in keeping us updated as well as giving us quick and easy access to obtain the answers we need. By supporting our ISO 14001 and OHSAS 18001 requirements, the Legislation service also helps us surpass our SHE best management practices."

We simplify the compliance process—see what the Canadian enviroOSH Legislation can offer you:

Get the bottom line. Our update service identifies amended legislation, summarizes the amendments' significance, provides links to the full text legislation, and uses highlighted text to identify the changes.

Access to full text of referenced standards from the Canadian Standards Association (CSA) and the Canadian General Standards Board (CGSB).

We compile guidelines and codes of practice for you. These can be widely scattered on government websites – we include them with the relevant legislation.

Unparalleled client support. From useful user documentation, tutorials and tips to ongoing content and technical support, we offer a level of support and expertise unmatched by any other service.

Meeting your compliance needs

Support your ISO 14000 requirements and be sure you are in compliance, using the most *convenient, complete* and *current* product available anywhere!

Convenient

› **Easily search for topics across jurisdictions.** Searching a topic across the websites of as many as 14 jurisdictions is very difficult, involving different search protocols. Easily search all jurisdictions or just a few, simultaneously.

› **We compile guidelines and codes of practice for you.** These can be widely scattered on government websites – we include them with the relevant legislation.

Complete

› **Access to full text of referenced standards** from the Canadian Standards Association (CSA) and the Canadian General Standards Board (CGSB). Added bonus: Canadian enviroOSH Legislation service is often the only source of earlier editions of standards still cited in legislation.

No more need for gazettes.

Save the time spent scanning gazettes. We alert you monthly and incorporate regulatory amendments – monthly on the web service and quarterly on the DVD service.

› **Get the back story.** We post the complete amendment history at the top of all documents. Other services don't.

Current

› **Find out what's new when it happens** – no more multi-site searching for new acts and regulations. Our monthly update service consolidates all new announcements so that you don't have to.

› **Keep on top of changes.** Each new issue, changes to information are highlighted so you can be sure you're in compliance.

Several editions tailored to your needs

Canadian enviroOSH Legislation is a trusted resource that gives Canadians immediate access to their rights and responsibilities in health, safety and the environment. This one-stop source provides up-to-date, quality-assured information for all Canadian jurisdictions.

Choose the edition that's right for you:

National Legislation

The full national collection of federal and provincial legislation – over 20,000 pages of environmental and OSH legislation exactly as it appears in the original legal sources, complete with illustrations, charts and high resolution graphics.

Regional Legislation

Eastern Canada, Western Canada or Ontario – each regional edition includes ALL federal documents plus OSH and environmental legislation for specific regions in Canada.

Legislation plus Standards

National or Regional Legislation plus more than 400 CSA International standards and 100 Canadian General Standards Board (CGSB) standards. BC WCB standards are also included.
