DECISION TREE FOR EYE EXPOSURES

If irritation occurs, cautiously rinse eyes with lukewarm, gently flowing water for 5 minutes, while holding the eyelids open. If eye irritation persists: Get medical advice/attention.

Gently brush product off face. Do not rub eyes. Let the eyes water naturally for a few minutes. Look right and left, then up and down. If particle/dust does not come out, cautiously rinse eyes with lukewarm, gently flowing water for 5 minutes or until particle/dust is removed, while holding the eyelids open. If eye irritation persists: Get medical advice/attention. Do not attempt to manually remove anything from the eyes.

Gently blot or brush chemical off the face. Avoid direct contact. Wear chemical protective gloves, if necessary.

(Remove source of exposure or move person to fresh air.) Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing….* Take care not to rinse contaminated water into the unaffected eye or onto the face. Immediately call a POISON CENTER/doctor/….*

*…consider specifying a flushing duration of 30 minutes (for most corrosives), or 60 minutes (for strong alkalis), or that rinsing continue until medical aid is available.

FROSTBITE/CRYOGENIC?

Yes
